Questions?

Holiday Fire Safety Tips

Anthony Hilderbrand
Fort Campbell Fire Prevention Office
798-7171

Christmas Tree Dangers

- One of every three home Christmas tree fires are caused by electrical problems.
- Although Christmas tree fires are not common, when they do occur, they are more likely to be serious.
- Choose a tree with fresh, green needles that do not fall off when touched.
- Make sure the tree is at least three feet away from any heat source, like fireplaces, radiators, candles, heat vents or lights.
- Make sure the tree is not blocking an exit.
- Add water to the tree stand. Be sure to add water daily.
- Get rid of the tree after Christmas or when it is dry.

The Dangers of Turkey Fryers

- Hot oil may splash or spill during the cooking. Contact between hot oil and skin could result in serious injury
- Turkeys must be completely thawed before placing in the fryer, because a partially thawed turkey will cause the oil to splatter causing serious burns
- Propane-fired turkey fryers must be used outdoors
- Consider a new type of “oil-less” turkey fryer

Holiday Safety

Crime Prevention Tips
Winter Travel

MAJ Keith Shumate
Chief of Police, DES
956-3360

Most crimes are committed because there is an opportunity.

Protect yourself and take the opportunity away.

- Don’t leave gifts and purchased items **unattended in plain view** in your vehicle
- Record serial numbers/take photographs or video of valuables
- For extended absence, cancel mail or news paper deliveries, or have a trusted friend pick those items up
- When putting your trash out, **don’t leave boxes** of newly purchased items where others passing by can see
- **Don’t advertise** on social media sites when and where you are going for vacation.
- Ensure you lock all doors and windows when leaving your home **regardless of how long you will be gone**

Winter Travel Tips

- Check to make sure your lights and windshield wipers are functioning properly
- Map your route in advance and be prepared for busy roads during the most popular times of the year
- Drive slowly and maintain plenty of room between you and the next car
- For up-to-date FTCKY road conditions Call: **(270) 798-ROAD**

GREEN: No risk. No restrictions on military/tactical vehicles.

AMBER: Moderate risk, some roads and overpasses slippery, reduced visibility.

RED: Extreme risk; all roads made hazardous by snow, ice, or greatly reduced visibility. Restrictions: Emergency mission essential vehicles only.

BLACK: No movement. Emergency vehicles only (Fire, Police, Ambulance). POV's use caution.

Gander Memorial

MAJ Ireka Sanders
2nd BCT Public Affairs Officer
ireka.r.sanders.mil@mail.mil

30th Gander Memorial

PURPOSE:

To pay tribute to the 248 Soldiers who lost their lives in pursuit of freedom and to continue to show our resolve in honoring our fallen.

Upcoming Events & Activities

Holiday Schedules

-In recognition of the upcoming holidays, BACH personnel will observe federal holidays on Friday, Dec. 25, Friday, Jan. 1 and Monday, Jan. 18, therefore all primary and specialty care services and pharmacies will be closed. The Emergency Center, inpatient services as well as supportive supplementary services will remain open to provide inpatient, acute and emergency medical care.

Construction Updates

-The new Emergency Center reception, waiting, and triage area is open for patient care. A ribbon cutting ceremony is scheduled for Dec. 17 at 3 p.m. outside of the C entrance.

-Young Eagle Medical Home is scheduled to open in the main hospital for patient care in early January

Upcoming Events & Activities

National Influenza Vaccination Week

Dec. 6-12 is National Influenza Vaccination Week, which is a national observance that was established to highlight the importance of continuing influenza vaccination. BACH Patient Centered Medical Homes are offering the flu vaccine to their assigned patients during clinic hours. Flu vaccines can be given on a walk-in basis 30 minutes after your medical home opens and 45 minutes before your medical home closes. Patients may select to avoid longer wait times between 11 a.m. and 1 p.m. Patients may also receive the flu vaccine during scheduled well visit appointments. Active Duty Soldiers should follow their unit's guidance as to when and where they will receive their flu vaccine.

Community Forum

BACH is scheduled to host a Facebook community forum Jan. 13 to discuss community concerns and areas of interest. Please submit your questions early by visiting the Blanchfield Facebook page- your feedback is greatly appreciated and we look forward to working with you!

Upcoming Events & Activities

National Glaucoma Awareness Month

Glaucoma is a group of eye diseases that gradually steal sight without warning. Although the most common forms primarily affect the middle-aged and the elderly, glaucoma can affect people of all ages.

Vision loss is caused by damage to the optic nerve. This nerve acts like an electric cable with over a million wires. It is responsible for carrying images from the eye to the brain.

There is no cure for glaucoma—yet. However, medication or surgery can slow or prevent further vision loss. The appropriate treatment depends upon the type of glaucoma among other factors. Early detection is vital to stopping the progress of the disease.

Patient Advisory Council

-BACH's Patient Advisory Council meets every fourth Thursday at 9:30 a.m. in the Patient and Family Medical Resource Center. The goal of the council is to collaborate with patients to improve the quality of care provided at BACH. If you're interested in attending, contact Courtney Purswell at 270-798-8158 or courtney.a.purswell.civ@mail.mil

Role Serving the Military Community

- RP/6 established a ***Coordinated Network*** unique to Service Members, Veterans and Military Families.

- Community Convening Location "One-stop-Shop" **to connect resources for service members, veterans and military families in more efficient, effective, positive ways.**

- **RP/6 is** committed to developing a ***unique answer to better-serving the military community*** by establishing a collaborative solution while remaining mindful of the unique characteristics and needs of service members, veterans, military families and the community.

- RP/6 currently includes over 100 ***local and national partners providing resources*** from public, private and independent sectors.

Role Serving the Military Community

The USO RP/6 team connects the service/family member to many different opportunities through a unified network of private and public partners leveraging resources across multiple domains:

USO RP/6 offers a Network of Resources and Services in 8 core areas:

- *Employment*
- *Education*
- *Benefits/Resources*
- *Family Programs*
- *Housing*
- *Wellness*
- *Financial*
- *Legal*

Leveraging Resources; Convening, Connecting, Collaboration, Coordination,
Decrease Duplication of Resources and Services, Greater Accountability
= a UNIFIED and ACCESIBLE Network for Service/Family Members

How It Works:

- **Public/Private Dollars ensure there's *no charge to the service member, veteran or family member***

- **Get Centered –** Intake Critical Information to Assist Service/Family Member: RP/6 in person or virtual

- **Get Focused -** develop a thorough Assessment/Create Action Plan: SCOUT (Case Manager) assesses the Service Member/Family Member/Veteran's current situation, together they create an action plan to reach individual/family goals

- **Get Targeted -** and TRACK progress on Action Plan: Service Member, Veteran/Family member is referred to a targeted service provider/resources within the Unified and Coordinated Network to appropriate provider(s)

- **Get Connected -** ensure FOLLOW THRU: The Coordinated Network communicates to validate services are provided, quality standards are met, and the Service Member/Family/Veteran's goals are achieved
